ALL TALK OF PEACE

Indications Are That Proposed Terms Will Be Accepted.

M. CAMBON FULLY EMPOWERED TO TREAT FOR SPAIN.

Washington, Aug. 1.—Special—An answer to the American reply to Spain's application for terms of peace is not expected before tomorrow or Wednesday. The president's demands were sent to M. Cambon with the comment that they were the most liberal that could be obtained, and were regarded by him as exceedingly lenient. The Spaniards, however, are inclined to haggle over a few points, and if Cuba is surrendered they will insist that the debt of the island be assumed by the United States. This will not be conceded, however. There is confidence expressed that the American propositions will be finally accepted. The success of the Porto Rico invasion, the Carlist uprising in Spain, and the progress made by the Americans in the Philippines combine to enforce upon Spain the fact that the longer she delays in effecting a peace the worse her plight will be.

Europe Approves Terms.

Washington, Aug. 1.—Special—The assertion of Premier Brisson, of France, that Europe has no right to and will not interfere with the peace negotiations now in progress between Spain and the United States is taken here as an announcement on behalf of all the powers of a settled policy. Thus far there has been only praise of the leniency of this government. Madrid alone complains of their severity, but this was to be expected. The United States will be compelled, of course, to recognize the great powers in some manner. This recognition will take the form of an official note to each informing them of the basis upon which a peace has been arranged, but this note will neither ask their assent to the agreement nor recognize in any way their right to interfere. It will be done simply as an act of courtesy.

A Fairminded Diplomat.

Washington, Aug. 1.—Special—There is much satisfaction here with the course pursued by M. Cambon, the French ambassador acting as peace commissioner for Spain. He has acted in a frank, straightforward manner, entirely different from the course usually pursued by Spanish diplomats. While asking liberal terms for his client he has recognized the fact that Spain is the suppliant, not the dictator, and has recommended to that power the acceptance of the terms proposed without unnecessary delay or evasions of any sort. There is a feeling of confidence that any covenants he may agree to on behalf of Spain will be performed, for he has carte blanche from Madrid to exercise his own discretion in the matter.

The Reply in Madrid.

Madrid, Aug. 1.—Special—The minister of foreign affairs has received a telegram from Paris stating that the reply of the United States will be forwarded to Madrid immediately. The French, German and Austrian ambassadors conferred with the minister yesterday regarding the peace negotiations.

England in the Philippines.

London, Aug. 1.—Special—In the house of commons today Mr. Curson said no negotiations were in progress with the United States regarding the Philippines. He also said the government had no information that Germany was seeking possession of the island of Luzon.

Think Spain Will Accept.

Washington, Aug. 1.—Special—It is believed the Madrid cabinet will hold a meeting today to consider the peace terms. The general sentiment in official circles is that Spain will accept President McKinley's terms, and word to this effect is expected from Madrid any hour.

A Prize of War.

Key West, Aug. 1.—Special—The Spanish schooner De-lores arrived from the Isle of Pines this morning in charge of a prize crew. She was captured July 24 while attempting to convey provisions to Batabano.

PRINCE BISMARCK.

DEATH WAS WELCOMED

Martin Thorn Pays the Penalty of Murder in the Electric Chair at Sing Sing.

Sing Sing, July 1.—[Special]—Martin Thorn was electrocuted at 1:17 this morning.

Thorn met death bravely. He seemed anxious to die. It was only after he had been strapped in the chair that he nervously swallowed a lump in his throat. His death was painless.

The crime for which Thorn was electrocuted was the murder of William Guldensuppe, a rival for the affections of Mrs. Auguste Naack. Guldensuppe was shot to death by Thorn and afterwards his body cut into small bits and thrown into the river. Mrs. Naack assisted in all the details of the crime, and was jointly indicted with Thorn. At Thorn's trial his turned state's evidence and was sentenced to twenty years' imprisonment.

ALABAMA'S ELECTION.

Populists Charge the Democrats With Attempts to Count Them Out

Birmingham, Ala., Aug. 1.—[Special]—The state election is held today. Serious trouble is expected. The populists say the democrats will attempt to defraud them out of their rights. Thousands of populists are armed and swear to forcibly resist any attempt to count them out.

GOV. SCOFIELD IN THE LEAD.

Encouraging Reports Come From The Counties of the State.

The Milwaukee correspondent of the Chicago Inter-Ocean says: Reports most encouraging for Governor Scofield are coming in from all parts of the state, which tell of the election of Scofield delegates to the state convention. A majority of Scofield delegates were elected on Saturday in Grant county, a part of the state considered a La Follette stronghold. The delegates from which two years ago voted solidly for him. Congressman Hatcher has also gained a signal victory in the same county. He carried all the towns and left only three to his opponent, Senator Charles H. Baxter. An energetic fight was made in Hatcher's behalf, whose supporters went hand in hand with those of Governor Scofield, and the fact that Senator Baxter has yet two years to serve in the legislature operated partly against him.

In Outagamie county, of which Appleton is the chief city, the La Follette men concede to Scofield seven of the eleven delegates chosen, but it is claimed that the delegation will vote unanimously for Scofield. Wood county has a Scofield delegation. The Republican assembly convention for the district comprising the counties of Oneida, Price and Vilas, passed a resolution endorsing Governor Scofield and instructing the delegates to vote for his re-nomination at the convention. The Door county republicans have also remained loyal to Scofield, as did their neighbors in Kewaunee county.

Skates of Glass.
Through persistent experimenting a process has been discovered by which glass can be hardened to the consistency of steel, and its first practical application is being given to the manufacture of skates. The product has so many advantages that it is certain of being a successful competitor of steel skates, it having already withstood satisfactorily all the tests to which it has been submitted. It is of lower cost, much more durable, lighter and faster.

BRIEFS FROM BELOIT

Death Of a Well Known and Highly Esteemed Merchant - Pays a Visit To Cuba.

Beloit, Wis., Aug. 1.—[Special]—James L. Perkins, a hardware merchant, died Saturday after an illness of short duration. Mr. Perkins' death causes much sorrow in the community especially in business circles where he has been known a great many years. He has always resided in this city and had a large acquaintance and a great many warm friends. He leaves a wife, who is the daughter of R. E. Heiney, at whose house they resided.

Mrs. Capt. T. J. Rogers received a letter from her husband at Jacksonville, Fla., in which he says he will sail for Santiago, August 5. He is one of a company of five guests who will sail with a Cuban officer. He expects to make the trip in about fourteen days.

FIENDISH SPANIARDS

Lay Waste The Country While Flying Before Americans.

WOMEN ASSAULTED AND CHILDREN MURDERED.

Washington, Aug. 1.—Special—If anything was needed to justify this government in demanding of Spain the cession of Porto Rico the conduct of the Spanish soldiers in their retreat before Gen. Miles' army would furnish it. The fleeing miscreants left only devastation behind them. Houses were burned, plantations laid waste, women outraged and children ruthlessly slaughtered on every side. The worst scenes of pillage and rapine that history records were duplicated by the cowardly wretches who wore the uniform of the Spanish army. The country all along their route has been desolated and the people worse than beggared. Nothing could exceed the barbarity displayed. The Americans are horrified and indignant, and the perpetrators of the barbarities would fare ill if they should fall into the hands of the invaders.

Welcome American Rule.

Ponce, Aug. 1.—Special—The city today was placarded with posters by order of Gen. Wilson, military governor, demanding the surrender of all arms, and declaring it to be the duty of every citizen to tell if he knows where arms are concealed. The natives assisting in the work of running down Spaniards with a vim in the desire to show the Americans they appreciate their freedom from Spanish tyranny. In spite of all this excitement the city is orderly. The Spanish judges have been displaced. The custom house operations are continued by the Americans, and customs receipts for three days have been \$20,000. A sanitary corps has been organized. The soldiers are well. The movement towards San Juan is slow because the commanding officers want no repetition of the Cuban mistakes.

Germany's Change of Front.

Washington, Aug. 1.—Special—There is a quiet chuckle going the rounds in official circles over the announcement from Berlin that Germany has withdrawn her ships of war from the Philippines "now that German interests are sure of American protection." German interests were never in jeopardy at Manila, and there was at no time been any need of ships of that nation there. The real cause of the change in the German attitude is the firm course pursued by Admiral Dewey, who gave the Teutonic commanders to understand that they would be treated as enemies of the United States if they attempted to interfere with his plans. The German change of front was not dishonorable in any way, but the excuse given for it is laughable to say the least.

Activity at Havana.

A Cable to Ponce.

PATSY AS AN ISSUE

What Will Be Done With City's Prize Drunkard?

PATSY GRIFFIN MAY BE REFORMED.

He Has Many Good Qualities of Heart When Sober.

THERE IS NEED OF EARNEST MISSIONARY WORK.

An Old Soldier, a Slave to Drink, Gives the Police Much Trouble—No One Appears to Seek His Reformation—

A Case That Should Enlist Philanthropic Effort Among Good Citizens Generally.

Patsy Griffin is a public institution. He is the prize drunkard of Janesville. The number of times he has become intoxicated during the past dozen years may be ascertained by consulting the jail records and finding out the number of days he has been at liberty.

Patsy is supposed to be irreclaimable. It is merely a supposition, however, for no one has ever attempted to reclaim him. It has been taken for granted that he doesn't want to quit drinking. As soon as he emerges from jail he makes a bee-line for a saloon, and demands liquor. The saloon keepers know by experience that he will raise a disturbance if they refuse compliance with his request, and so they set up the worst stuff they have in the house. Quality makes no difference to Patsy; what he wants is something that will burn his way down to his stomach and send the fumes of alcohol coursing through his veins to his brain. It does not take him long to get drunk, for he always pours out a liberal allowance when the bottle is set before him, and has several "jolts" where he is sure to have his wants supplied.

Saloon Keepers Defy the Law.

This, then, is how Patsy gets the liquor upon which he becomes drunk. The saloon keepers who supply him have no fear of the law before their eyes. The statutes of Wisconsin provide that any person who shall sell or give away liquor to a habitual drunkard—and no one can pretend ignorance of the fact that Patsy Griffin is such a character—is liable to have his license revoked, and suffer both fine and imprisonment. Every saloon keeper in Janesville, therefore, who gives Patsy Griffin a drink of liquor says himself liable to a criminal prosecution, and the police are remiss in their duty if they fail to enforce the law.

Patsy Griffin would never get drunk if he could not get liquor, which the law forbids all men from furnishing to him. He would be compelled to remain sober, and might in time become a good and self-respecting citizen. He is not so lost to manhood as to be incapable of reformation. Worse men than he have been "plucked as brands from the burning." Those who know Patsy best say he has a good heart, and will deny himself anything but drink in order to help those in need. Liquor has got a strong hold upon him, it is true, but are there not some in Janesville who will stretch out their hands to save him? Is there not one man who will have compassion on him and make an effort, in the face of discouragements, to restore him to his right mind?

Lacks a Helping Hand.

Patsy Griffin probably has a soul. If so is he not worth saving? There are thousands of good men and women who give of their money and labor to promote the cause of missions in China and Africa, and the islands bordering on the dark continent, but they bestow no thought upon poor Patsy Griffin, a veritable heathen who resides at their very doors. He, surely, is no worse than the cannibals of the south seas or the worshippers of graven images in Asia and Africa. He has some education, and in his sober moments no doubt longs to be able to walk upright with his fellow men. But no helping hand is extended to him. Instead the boys of the own hood at and pelt him with mud whenever he shows himself upon the street, and men and women who pretend to be Christians laugh at the sport. Is it any wonder that Patsy turns upon his tormentors, and with curses, threats and missiles endeavors to drive them off?

Patsy might be reclaimed, for there never yet was human being fallen so low as to be insusceptible to kind

treatment. He is not vicious except when in his cups. But with the best of men "when wise is in wit is out" in Patsy's case. He is quarrelsome, insulting and even dangerous at such times.

He Receives pity

The police do their duty in arresting Patsy when he becomes drunk and disorderly, which is generally within an hour after he is released from jail. The judge of the municipal court obeys the law when he restrains him of his liberty. But both police and judge look upon Patsy with pity more than with terror. They know that he has in his time been a good citizen; they know that he has been a good soldier and in his humble sphere did all in his power for his country. They know that before strong drink obtained the mastery over him he was a faithful and industrious worker, who could be safely entrusted with any duty. They know he will not steal, except, perhaps, he might take a drink of whiskey that did not belong to him. They know that he is truthful except where drink is concerned. They have little hope, however, that he will ever reform, yet if there was a possible chance to work his reformation they would cooperate the labor with all their hearts.

Patsy's case is a deplorable one truly, and should awaken more of public sympathy than it has aroused. It commends itself to all Christian people in Janesville. There are those among us who are giving liberally of their means towards the conversion of the heathen in darkest Africa, yet here is a heathen at their very doors upon whom they bestow no thought. Perhaps they say he is irreclaimable or is not worth saving. They forget that the Divine One breathed a blessing and forgiveness upon the thief who suffered with him upon the cross. They forget that Mary Magdalen became one of the most exemplary of the followers of the Christ. They forget that many moral as well as physical lepers have been cured in the past.

Who Will Care For Patsy?

In this godly, church going city will no hand be extended to save poor Patsy Griffin? He was returned to the county jail last Saturday for a term of ten days. When he emerges a week hence he will be sober, though the craving for drink will still be upon him. If he is met at the door of the jail by some one who will direct his steps to a coffee house instead of to a saloon the first victory over his appetite may be gained. If a kindly hand is stretched out to him, a word of encouragement and hope spoken, perhaps it may do him good. The first attempt at his rescue may not be entirely successful. He may be returned time and again to the jail, but a persistence in effort on his behalf will not be without its effect. There should be those in the city who will sacrifice something on behalf of a fellow mortal. Those who begin the good work will not be long alone. At the first sign of reformation on Patsy's part there will be hundreds anxious to help the good work along.

Patsy Griffin may yet walk upright among his fellow men, and the best of our citizens may yet be glad to grasp him by the hand. But his reformation cannot be brought about by prosecutions or persecutions. He must be surrounded by good influences, those that tend towards sobriety, industry and virtue, instead of those whose only tendency is in the direction of vice and dissipation.

Who will go to the help of Patsy Griffin? Who will start him on the road to reformation and assist in making of him a self-respecting and respectable citizen? The game is worth the powder.

GAMMON IS DOING GOOD WORK IN CHINA

BELOIT MAN INSTRUCTS CELESTIALS IN MILITARY TACTICS.

He Is Also Endeavoring to Convince Them of the Truth of Christianity—His Labors Have Been Rewarded By a Goodly Share of Success Thus Far.

Beloit, Wis., Aug. 1.—About ten years ago Charles F. Gammon, a Beloit young man, an enthusiastic member of the Beloit City guard, went east and drifted into the United States navy as a marine, and was sent to China, where he served on board the Monocacy, then playing the Chinese rivers. While there he became interested in an American missionary lady, whom he married, and identified himself with the Y. M. C. A. at Tientsin, China, and when his term of enlistment expired he entered the service of the Y. M. C. A. as secretary. In a short time he secured a place in the imperial school at Tientsin as English teacher of United States military tactics. In this capacity he has been shown great consideration by the government of China and was given many youths of the imperial family to instruct in the military customs of the United States.

A School Manual.

He has lately issued a school manual for the instruction of Chinese boys, which has been adopted by the government at many schools. A late copy of The North China Daily News, published at Shanghai, commenting on the military situation of the country and Mr. Gammon's tactics, says:

"The makers of recent history in the far east have unwittingly been preparing the way for the adoption of Mr. Gammon's pocket book of drill and physical instruction. At any rate we hope it is so for we can assure every patriotic Chinaman, official or otherwise, that there is not within the covers of this little book which could put a new face on the political future of the Chinese empire. Had such a manual existed half a century ago—and tremendous assumption—had its teaching been put into practice, the disgraceful history of the past half year would never have been written."

What China Needs.

What China needs is a simple series of movements and a systematic physical drill. She wants to have the prevalent notion that athletics are undignified knocked out of her head once for all, and there is no better way of doing this than by beginning with her schools.

We have probably given the impression that the work is almost purely military, and that therefore missionary bodies must avoid it like sin. But there is in fact a complete system of physical exercise without any essential connection with drill. This we are certain might be adopted by our younger missionary teachers with admirable results.

President Eaton, of Beloit college, was a guest of Mr. Gammon while in Tientsin on his missionary inspection tour last spring, and was very highly pleased with the Beloit boy's work.

Senator Hanna's Views.

Cleveland, O., Aug. 1.—Senator M. A. Hanna, in response to an inquiry as to what, in his judgment, should be done with the Philippine islands, said: "That is a big question, and we must go slowly. We at least want a footing on those islands. Although there may be a sentiment against keeping them, there is a bigger sentiment against giving them back to Spain. We are confronted with new conditions today, and we intend to work out the problems in a manner which will be for the best of the country."

Will Make Needles by Machinery.

Cleveland, O., Aug. 1.—A number of Cleveland capitalists are organizing a company to be capitalized at \$1,000,000 to manufacture needles in this country by machinery. Heretofore all needles have been made in Europe by hand. Eugene Fontaine of this city is the man who, after nineteen years' hard work and study, has invented a needlemaking machine, which, it is claimed, will revolutionize the needlemaking industry.

Martin Thorn Must Die.

Albany, N. Y., Aug. 1.—Gov. Black has decided not to interfere in the case of Martin Thorn, condemned to death for the murder of Martin Gudensuppa, the bath rubber, at Long Island a year ago. The court of appeals at Albany affirmed the conviction and refused a new trial. The only hope left for the man lay in the exercise of the governor's power of executive clemency, and of this there was little expectation.

Strange Tragedy in Idaho.

Kendrick, Idaho, Aug. 1.—The charred remains of Nicholas Gehlen and Mrs. E. M. Marnseck, wife of a business man, were found yesterday in a building which had just burned down. Two shots were heard inside the building after the fire was discovered and they are supposed to have caused the death of the two persons. Nothing is known of the cause of the tragedy.

Typhoid Fever with the Seventh.

Camp Alger, Va., Aug. 1.—Typhoid fever has at last made its appearance in the Seventh Illinois. Surgeon-Major Sullivan reports that the men are only slightly affected with the fever and are almost certain to recover speedily. Col. Kavanaugh has redoubled the sanitary precautions hitherto in force in regimental quarters and lessened the amount of camp duty to be performed each day.

OSHKOSH FACTORIES RESUME

Those Suspended on Account of the Strike Will Resume Wednesday.

Oshkosh, Aug. 1.—Next Wednesday an attempt will be made to start the factories that have been wholly idle since the fatal McMillen riot, June 23. Previous to that date they had operated with a handful of men each, but so serious and threatening were the demonstrations of that and preceding days that the manufacturers decided it was best not to run, and workers refused to take the chance of going to work. The wash and door men have held several meetings lately, and, acting in concert as they have throughout, will, on Wednesday morning, steam up and receive applications from all laborers who see fit to come. In carrying out their plan the manufacturers have issued notices to their employees and to whom it may concern. They are worded like the following: "We have decided to make an effort to open for business immediately after Aug. 1. If we are not successful we will close down again for an indefinite period. No person will be refused work who is competent to fill a place that is vacant. Wages will be continued through the winter as usual. If the effort to start is not successful the community will be responsible."

Whether the workmen will respond is a mooted question. The manufacturers claim that they have assurances of crews sufficient for present needs. They claim that three months of idleness has exhausted the resources of the strikers, and that the majority would be only too glad of a break, fear being all that has kept them in line. On the other hand the strike leaders are just as confident and defiant as they have been all along, and assert that the exodus of strikers from the city and the unwavering determination of those remaining will prevent the factories getting crews.

Some persons not directly interested, including members of the Beloit force, predict trouble Wednesday, and claim that the lawless element has not been subdued.

The talk of bringing in outsiders is regarded with misgiving, and if this is done there undoubtedly will be friction.

STRONG STATEMENTS.

Three Women Relieved of Female Troubles by Mrs. Pinkham.

From Mrs. A. W. SMITH, 59 Summer St., Biddeford, Me.:

"For several years I suffered with various diseases peculiar to my sex. Was troubled with a burning sensation across the small of my back, that all-gone feeling, was despondent, fretful and discouraged; the least exertion tired me. I tried several doctors but received little benefit. At last I decided to give you Lydia E. Pinkham's Vegetable Compound a trial. The effect of the first bottle was magical. Those symptoms of weakness that I was afflicted with, vanished like vapor before the sun. I cannot speak too highly of your valuable remedy. It is truly a boon to woman."

From Mrs. MELISSA PHILLIPS, Lexington, Ind., to Mrs. Pinkham:

"Before I began taking your medicine I had suffered for two years with that terrible feeling, headache, backache, no appetite, and a run-down condition of the system. I could not walk across the room. I have taken four bottles of the Vegetable Compound, one box of Liver Pills and used one package of Sanative Wash, and now feel like a new woman, and am able to do my work."

From Mrs. MOLLIE E. HENNEL, Powell Station, Tenn.:

"For three years I suffered with such weakness of the back, I could not perform my household duties. I also had falling of the womb, terrible bearing-down pains and headache. I have taken two bottles of Lydia E. Pinkham's Vegetable Compound and feel like a new woman. I recommend your medicine to every woman I know."

DUTY OF REPUBLICANS.
The duty of loyal republicans in the present emergency is plain. Disgraced office seekers are attacking a republican administration that everyone admires has been a credit to the party, and abusing the men whom all good party men should uphold. These office seekers are headed by Robert M. La Follette who wants to be governor. Mr. La Follette has been devoting his whole time to speech-making and machine work. He has put forth a platform that any republican can stand on, and one that Governor Scofield can run on, and stand by as contentiously and as successfully as can Mr. La Follette. Hence, all of Mr. La Follette's talk of "principles" is pure bomb. He has no principles in his platform that any other republican does not believe in.

Shorn of empty mouthings and shallow pretenses, then, Mr. La Follette's platform becomes the simple principle that he wants to be governor bad enough so that he will spend nearly all his time, and vast sums of money in perfecting machinery that will permit him to realize his personal ambition, and punish the men who have opposed him because they felt that course to be their party duty. In other words Mr. La Follette seeks to use the republican party to gratify his personal ends, and does not deny the oft made assertion that his machine will bolt unless he is allowed to prostitute a party that has always had an honorable record.

Mr. La Follette's campaign has not been made with the idea of furthering his alleged "principles." They have only been referred to incidentally. The whole charges from his batteries have been fired at Governor Scofield—the man whom party fealty, if La Follette has any, should lead him to commend in all his good deeds, and to aid him in correcting any errors that he may make. The simple fact that Mr. La Follette has attacked his brother republicans with more ferocity and more unfair methods than the democratic press has over employed, shows that the welfare of the party has never entered into his calculations.

Then what does he want? Revenge, power. Mr. La Follette has been highly honored by his party, and when further honors were denied him by the people, he sulked in his tent. He brooded over his disappointed ambition until he became a political dog in the manger. His midnight musings brought him to a state where he charged various individuals with things they had never thought of doing, and surmises soon became to him absolute facts. While in this state of mind, the idea that he must have revenge came to him, and soon became his ruling passion. He lost sight of all other considerations and today he is actuated solely by the desire to punish men whom he imagines have injured him.

And if the republican party cannot be made to fall in line? Then he and his machinists will bolt. They bolted in Milwaukee last spring and accomplished republican defeat. They do not deny the charge, but glory in it.

Then what shall the loyal republicans do? Refuse to allow Mr. La Follette to prostitute the party. Defeat him. Then he and his backers will bolt. Let them do so. The republican ticket will be elected just the same. The bolters may have accomplished their purpose in Milwaukee but they cannot do so in the state at large. Mr. La Follette and his intimate machinists may bolt but they cannot force their followers to do so. The people who support Mr. La Follette are republicans and will remain republicans in spite of traitorous advice. The machinists will bolt but the rank and file will not.

The fight between the La Follette and anti-La Follette men in the state has been the most heated in the history of the party. Such fights are not advantageous and should not occur in the future. Gov. Scofield's friends made no charge against Mr. La Follette and his friends until after La Follette's gang had attacked the governor. The La Follette machine struck the first blow and the person attacked naturally defended themselves. The battle has waxed so hot that it must be settled, one way or the other, NOW.

Every newspaper of any standing in the state has espoused the cause of one or the other faction. The majority favored the renomination of Governor Scofield, while the kickers, Mr. La Follette's personal organ, and the democratic press, favored the La Follette machine. There was one notable exception, however, The Milwaukee Sentinel. This paper did not dare espouse the cause of Mr. La Follette openly, but sat on the fence—an object of pity by every newspaper in the state that had the courage of its convictions. Finally The Sentinel saw the handwriting on the wall. It realized that Mr. La Follette's hopes would be dashed, and that the feeble support it had given Governor Scofield gave it no standing. Then it evolved a great scheme—for the benefit of the Milwaukee Sentinel, exclusively—to bring forth a third candidate. This would let the cowardly Sentinel down easy and cover its short comings.

But the Sentinel's scheme will fail. Mr. La Follette has betrayed his party and will fall in the pit he has dug. He has sowed to the winds and will reap the whirlwind. He has made his bed voluntarily, and refused to demonstrate his political fealty by agreeing to stand by the nominee in case he loses. The wages of political sin are due him, and they will be paid—the scheme of The Milwaukee Sentinel to the contrary notwithstanding.

Stand by the guns. Defeat La Follette. Let him bolt. The republican ticket will be elected anyway, and the disturbers and traducers will be squelched for all time. Do not think that the situation will be bettered by the nomination of a third candidate. Then the factional strife will be resumed two years hence. The time to balance the books is NOW. Long live the Republican party! Down with hypocrisy! As Stephen A. Douglass said:

"There can be but two parties in this country—patriots and traitors! a man who assails his own party, unfairly and without provocation, cannot be a patriot. Mr. La Follette began his campaign by firing on the republican party in Wisconsin. Hence, the party that he belongs to cannot be mistaken, and justice will surely be done him."

The Milwaukee Journal publishes an article in which are reproduced facsimiles of the scrip issued in payment of the wages of the men employed by A. R. Hall, the anti-corporation abuser. This is the reason that Hall turned down the Frost bill, prohibiting the payment of wages in scrip. Apparently Hall's anti-corporation talk is buncombe.

The United States can afford to deal liberally with Spain. The Maine has been "remembered" and the butchery of Cubans stopped. If the island is freed, Puerto Rico ceded to us, with calling stations where we want them

on other Spanish soil, we have received enough.

The republican party has a duty to perform. To postpone the doing of that duty will not do away with the necessity of performing it. Smash the La Follette machine now, and it will not have to be done later.

The Milwaukee Sentinel cried "Wolf!" when the wolf was not. Consequently, the next time The Sentinel gets scared, no one will pay any attention to its wails.

If the republicans of the state want a reliable, energetic and fearless party paper, they should read the Milwaukee Evening Wisconsin.

Up to date Gov. Scofield has a large majority of the delegates elected to the state convention.

The republicans of the state refuse to be stampeded by La Follette organs.

HOW THE CAUCUS SHOULD BE RUN

SECRETARY JACKSON ISSUES A CIRCULAR.

Extracts from the Law Relating to the Way in Which Tonight's Preliminary Meetings Should Be Conducted—The Duties of Inspectors and Other Officers

As the republican preliminary meetings will be held tonight the following instructions to inspectors under Chapter 312 of the Laws of 1897, are of interest. They are prepared by Secretary W. A. Jackson, of the county committee:

Inspectors are appointed by the county committee on or before the first day of February, in each year, and a certificate of the appointment is filed with the county clerk. Within ten days from the time of his appointment, the inspector must make and file with the county clerk an oath or affirmation as provided in said law. Inspectors having been appointed and qualified as above, have the right to administer the oath necessary to carry on the caucuses. In case any inspector shall fail to appear at the time fixed for the caucus, the inspector or inspectors present may appoint some elector resident of the caucus district in place of the absent inspector.

The chairman, secretary and three inspectors shall be a canvassing board who shall faithfully, honestly and correctly canvass all votes cast at the caucus.

At the preliminary meeting the chairman of the ward, or in his absence a caucus inspector shall call the meeting to order. The following is the order of business of the meeting:

1st. Election of chairman and secretary, who by virtue of such election, shall also act as chairman and secretary of the caucus.

2nd. The chairman shall declare nomination open for delegates in the order given in the call.

3rd. The names proposed shall be written on balls by the secretary and placed in a ballot box. Such ballots shall be furnished by the county committee and be of uniform color and size.

4th. Before entertaining a motion that nominations may be closed, the chairman shall first put the question to the meeting, repeat the same, twice, "Are there any further nominations?" after which a motion to declare the nominations closed, can be entertained and voted upon.

5th. Nominations being closed the electors present shall elect two tellers.

6th. The tellers shall withdraw the ballots placed in the ballot box, after the same has been thoroughly shaken, and announce the names as withdrawn.

7th. The secretary of the meeting shall make a list of the names in the order in which they are withdrawn, which he and the chairman shall immediately certify to the secretary of the county committee.

Same for All Delegates.

The same procedure shall be had for each set of delegates.

8th. The chairman shall then read the call for the caucus and state the time and place of holding the caucus, also that the county committee of the party will have tickets printed for the caucus, containing all of the names proposed, the voter at the caucus to place an X after the name of each delegate voted for. That no other but the official tickets will be received at the caucus, and that no tickets will be distributed prior to the caucus, and that all official tickets will be placed in the booth in which the caucus is held, whereupon the preliminary meeting shall stand adjourned.

Procedure At the Caucus.

1st. The chairman and secretary of the preliminary meeting shall be the officers of the caucus, and shall open the caucus at the time and place designated. In the absence of the chairman the caucus shall be called to order by an inspector in which case a new chairman shall be elected. If the secretary of the preliminary meeting is absent, a new secretary shall be elected.

2nd. At the opening of the caucus, the package of caucus tickets shall be opened, but no distribution of such caucus tickets shall be allowed, outside of the booth.

3d. The teller of the caucus shall take charge of the tickets and shall deliver to each elector entitled to vote, one ballot, and unless the elector returns the one first furnished, as having been erroneously prepared or spoiled, he shall receive no other. But no voter shall receive to exceed three ballots in all.

4th. Each elector shall prepare his ballot by placing an X after the name of each delegate he desires to vote for.

5th. Ballots containing more names crossed for delegate than the ward is entitled to, shall be void, as to that particular set of delegates and shall not be counted.

6th. The caucus inspectors shall act as tellers of the caucus and receive the votes of the electors of the party of the caucus district.

Only Party Vote.

7th. Only those who voted the ticket of the political party for which the caucus was held at the last general election, shall be entitled to vote.

8th. All electors whose right to vote shall be challenged by any caucus elector, shall not be permitted to vote unless he shall subscribe and file with such caucus officer an oath or affirmation that he is a resident of the ward, village or town, and is a qualified elector and that he

voted for the regular party candidates of the party, for which said caucus is held, at the next preceding general election, which affidavit shall be substantiated by the affidavit of two freeholders, electors of such caucus district, in so far as they know the challenged voter to be a resident and voter of the caucus district and that they have reason to believe that the statements made by such challenged voter in his affidavit are true and correct.

The Count.

9th. Immediately after the closing of the caucus, the canvassing board shall count every official ballot cast and verify such canvass in the presence of all persons desiring to attend, whose names appear on the ballot voted for at such caucus or one authorized agent for each such person.

10th. When the result is determined, it shall immediately be announced in a loud voice.

11th. The ballots or tickets cast shall be burned; verified and certified returns of the caucus shall immediately be sent to the secretary of the county committee together with a check register list and the affidavits received at such caucus.

Rumors of peace negotiations as well as further occupation of Cuba make us still uncertain of our future. But anything would be better than this dull garrison life, where each day duplicates the preceding one and the hours hang heavy on our hands.

I rather believe that the boys were glad at the order to move that came to us today, in spite of the very extreme hard work it would mean. Every man started to posts at 6:30, and as I write we are comfortable in our new camp. Better ground, good drainage and a view of oak trees in place of the monotonous tall pines. The sick in quarters, too weak to bear the excitement and heat of the change, were sent to the division hospital and the others came to our new location in an ambulance. It is truly wonderful how much can accumulate in so short a time in a man's knapsack and around the quarters. Two wagons hauled all day getting our goods and chattels, and most of it was lumber from floor, benches, tables, etc. Almost like moving a small house, each tent.

Our new location is nearer the city by about three blocks, two and one-half blocks farther from the war line. It is on sloping ground, and will, I believe, prove a benefit to our health.

The companies each have a street and the rows of tents face each other, making a much better allotment for such large commands.

"Dewey" went for a stroll last night and returned home to find his owner gone. At last reports he was under the platform of the old guard house frightened to death and refusing to come out.

Regular guard details are on today. Corp. Nott is Corporal of the guard and Privates Hager, Helm, Jarvis, Klenow, Kueck and Kueck are rather busy just at present trying to find a seat through the tangled shrubbery that surrounds the second camp of Wisconsin troops in Florida.

Privates McQuade and Meason were detailed to help the cooks, Privates Flint and Butterfield, today. The kitchen went first and when mess call was sounded, dinner was ready just as though we had always been there.

Privates Reynolds, Bond, H. Pruesse, E. Pruesse, Rice and Sheppard were detailed on headquarters and Quartermaster work.

We are all very tired tonight. It has been a hard, hot day but I really believe we will be all the better for the work.

Jacksonville, Fla., Aug. 1.—[Special]—It is perhaps too soon to judge of the health of the new location of the camp. Private Flanders was sent to the hospital yesterday; Private Kees, today; Corporal Smith is convalescent; no particular change in the others.

POLICE TO BREAK UP THE GANG

Hoodlums in the First Ward Who Make Life a Burden to Citizens

There is a gang of cowardly hoodlums in the First ward who seem to be banded together for the express purpose of terrorizing women, making life miserable for the motormen of the street cars, and otherwise disturbing the peace and quietude of that particular section of the city, and unless they are soon broken up by the police, they are to be taken in hand by a sort of vigilance committee that has been lately formed for the purpose, by several indignant men of the neighborhood and taught a lesson that will last them for all time. One party of ladies who had gone out to the end of the car line recently for a picnic were so annoyed and insulted by the gang that they picked up their things and started for assistance, whereupon the cowardly ruffians, several of whom are almost grown men, took to their heels and disappeared. That such a condition of things should exist in a civilized community is to be deplored, and all will rejoice that their reign of terror is soon to be ended.

BUSY DAY FOR THE JUDGE

Large Batch of Offenders Against Good Order Were Arraigned

Judge Patton had his hands full in the municipal court today. First came a batch of drunks suffering from an elbow disease caused by raising too many glasses of liquor to their lips. The first one led to the shambles was E. B. Nelson, who paid \$1 and costs amounting to \$2 and disappeared. The next three, John Mosher, George Cone and Thomas Nash, were not so fortunate in having the amount of their fines and Judge Patton kindly allowed them to spend the next three days away from the heat of the streets in the nice cool cells at the jail.

A Comparison of Sea and Land.

The triviality of the sea compared with the land is the theme of a recent article by Mr. John Holt Schoelling. A bucket 743 miles deep and 743 miles from side to side would hold every drop of the ocean. This bucket could rest quite firmly on the British Isles.

To fill the bucket one would need to work 10,000 steam pumps, each sucking up 1,000 tons of sea per second, for 422 years. So if anyone wants to be rid of the sea, the way is plain. But to get rid of the earth would be 4,555 times more difficult, requiring 2,000 great guns, each firing 1,000 projectiles a second, each projectile consisting of 100,000 tons of earth. At the end of 1,000 years this mundane sphere would be all shot away.

His Wardrobe Carefully Selected.

American and English swells have long vied with each other as to the variety and number of their suits of clothes. We have never heard that Parisian swells entered into the competition. Light is thrown on the subject through Le Figaro. A well-known member of the Jockey club was summoned as a witness in a case in court.

He was ordered to appear at 10 o'clock in the morning. As he did not come, an officer was sent to look him up. The truth is that the poor fellow had no clothes in which he could appear before the court. His entire wardrobe consisted of sixteen sets of pajamas and a dozen dress suits. It seems the man never got up until 4 o'clock in the afternoon, retiring fourteen hours later. He had no use for clothing beyond evening dress and the pajamas.

LATE NEWS BY TELEGRAPH.

WELCOME OUR SOLDIERS.

Porto Ricans Eager to Receive Gen. Miles.

SPANISH TROOPS RETREAT.

Citizens of Ponce Treat Gen. Miles' Entrance Into Their City as an Auspicious Event and Make It a Holiday Affair—Volunteers Surrendering.

Washington, Aug. 1.—Gen. Miles, in command of the Porto Rico expedition, sent the following dispatch to Secretary Alger, which was made public at the war department at 10 o'clock last night.

"Ponce, Porto Rico, July 31, 1898.—Secretary of War, Washington: Four telegrams received and answered by letter.

"Volunteers are surrendering themselves with arms and ammunition.

M. CAMBRON.

Four-fifths of the people are overjoyed at the arrival of the army. Two thousand from one place have volunteered to serve with it. They are bringing in transportation, beef cattle and other needed supplies. The custom house has already yielded \$14,000. As soon as all the troops are disembarked they will be in readiness to move.

"Please send any national colors that can be spared, to be given to the different municipalities.

"I request that the question of the tariff rate to be charged in the parts of Porto Rico occupied by our forces be submitted to the president for his action, the previously existing tariff remaining meanwhile in force.

"As to the government and military occupation, I have already given instructions based upon the instructions issued by the president in the case of the Philippine Islands and similar to those issued at Santiago de Cuba.

"MAJOR-GENERAL COMMANDING." HAS NOT REPLIED.

Conditions of Peace Now Before the Spanish Cabinet.

Washington, Aug. 1.—The French Ambassador, M. Cambon, Saturday forwarded to Madrid the conditions of peace laid down by this government, and their acceptance depends upon the Spanish cabinet, from which no reply

DUKE OF ALMADOVAR. (Spanish Foreign Minister.)

has yet been received. This plain statement of facts disposes of the story sent out from Washington that M. Cambon was clothed with plenipotentiary power for Spain in the peace negotiations, and that after President McKinley and Secretary Day had agreed to certain modifications of the conditions they were accepted and sent to Madrid for ratification by the Spanish cabinet. The story has met with the most positive denial from members of the cabinet and others in the President's confidence.

Secretary Alger has ordered fifteen more regiments to Porto Rico as reinforcements to Gen. Miles, and the general is planning his campaign against San Juan with the greatest care, that there shall be no possibility of reverses now after President McKinley has sent to Spain his conditions of peace.

QUEEN APPEALS TO MCKINLEY.

Said to Have Written a Pathetic Letter Praying for Justice.

New York, Aug. 1.—A special to the Press from Washington says:

"It is unofficially announced that the Queen Regent of Spain has written a pathetic letter to President McKinley, in which she eloquently recites the grief she feels over the unfortunate differences that have arisen between the United States and Spain.

"She pictures in moving terms the sorrow that the war has brought to her people, and pleads with paths and

fervor for a cessation of the war between the two countries. She prays that the president will be moved to deal justly with her people, and not impose harsh or humiliating terms upon them. She prays for speedy peace, and it is said, trusts that the president will not forget that she is a mother as well as queen."

FRESH HOPE FOR THE 5TH.

Illinois Men Expect Gen. Wade to Have Them Sent to the Front.

Camp Thomas, Chickamauga Park, Ga., Aug. 1.—Gen. Wade, commandant at this point, i. e., last night for Washington to confer with President McKinley and Secretary Alger concerning the future of the troops now quartered in Chickamauga park.

It is said positively that if any more troops are sent to Porto Rico they will be taken from the first army corps, which was formerly under the command of Gen. Brooke. The 5th Illinois, which was forced to give way to the 16th Indiana and which is now brigaded with the 1st Georgia and 31st Michigan, is conceded to be among the best drilled as well as the best equipped in Camp Thomas. It is said that there is now no brigade in the camp that can lay better claims for movement than the 1st brigade of the 2d division. This brigade is next in line.

The sudden call of Gen. Wade to Washington has raised new hopes in the hearts of the soldiers in the 2d division. They believe they see a chance to get to the front in case there is not a speedy settlement of the war.

Peace Commission Discussed.

Washington, Aug. 1.—There is so much confidence here that Spain will accept the conditions proposed by this government as the price for a suspension of hostilities that the membership of the peace commission is being discussed. It seems to be generally agreed the United States will have representatives upon the commission. Minister Woodford, who was so unceremoniously given his passports at the outbreak of the war, will probably be given the honor of sitting upon the commission. Ex-Senator George F. Edmunds of Vermont is referred to as a probable commissioner, but it is not known whether he will be able to accept. It is said that the president is inclined to favor ex-Secretary of State Richard Olney for one of the commissioners.

Battle in Cuba.

Key West, Fla., Aug. 1.—The supply steamer George W. Childs, employed by the government between this point and Dry Tortugas, arrived here at 10 o'clock Sunday, having on board 383 wounded soldiers, said to have received their wounds in an engagement between the Spaniards and insurgents at Neuvas. The captain of the Childs says the surgeons would not permit the wounded to land at Dry Tortugas, but have placed the vessel in quarantine and retained the Spaniards on board.

To Discuss Terms of Peace.

Madrid, Aug. 1.—It is stated that in the peace negotiations Spain will at first confine herself to a discussion of the Cuban debt and to securing an advantageous tariff on Spanish merchandise imported into Cuba. The reply of President McKinley to the Spanish note has been received and is being considered prior to the meeting of the cabinet today. It is rumored that the United States expects the immediate evacuation of Cuba and Porto Rico by the Spanish forces preliminary to the discussion of the terms of peace.

Sick to Go to Montauk Point.

Washington, Aug. 1.—Secretary Alger is hastening the preparations at Montauk Point for the reception of the 5th army corps, now at Santiago. Gen. Shafter has been authorized by a cablegram from Secretary Alger to notify his soldiers of the good fortune in store for them, in order that the men may be cheered up to wait with patience for their removal. This cannot be effected immediately, owing to the condition of the men themselves.

As to the Philippines.

London, Aug. 1.—A special dispatch from Madrid says: "Some of the leading members of the Conservative party question the utility of preserving the Philippines, because of the enormous expense that a suppression of the insurrection would entail. El Nacional urges their sale. All the Carlist newspapers have been suspended since Friday. It is asserted, however, on good authority that all reports of serious Carlist movements are quite unfounded.

Grand Review Postponed.

Washington, Aug. 1.—The plan for a grand review of the troops at Camp Alger before the president and cabinet is not likely to be executed. The announcement has been made that the review, which was to take place next Saturday, would be postponed until the 13th, but the prospect is that this is preliminary to giving it up entirely, owing to the prevalence of sickness and the possible removal of the camp.

Spanish Troops Destroy Property.

Ponce, Porto Rico, July 29, by Dispatch Boat Mindora to St. Thomas, Danish West Indies, Aug. 1.—The Spanish troops formerly stationed in this part of Porto Rico are retreating to the interior, leaving behind them a broad path of burning plantations and desolated villages.

The 50 cent reduction on every hammock in the store is moving them out rapidly. Former \$1.50 hammocks go at \$1 and so on down the line. Sanborn.

AUGUST HAS LOST HOPE.

Said to be Willing to Surrender Manila.

HE IS IN DESPERATE STRAITS.

Admiral Dewey and Gen. Merritt Now Hope to Take the City by the Combined Efforts of the Army and Navy Without the Loss of a Single Man.

With Admiral Dewey's Fleet, Manila Bay, July 26 (via Hongkong, Aug. 1.—It has been reported to Admiral Dewey by a prominent foreign resident of Manila who has just arrived at Cavite that Capt.-Gen. Augusti gave him a message to deliver to the American commander, to the effect that the city would be surrendered as soon as it could be surrendered honorably. This is construed to mean that only a mere show of resistance will be offered by the Spaniards when the bombardment by the American warships begins.

Admiral Dewey and Gen. Merritt, who arrived yesterday, now hope to take the city by the combined efforts of the army and navy without the loss of a single man. It is believed that by delaying the attack until the full naval force shall have arrived the display of powerful guns and the close investment of the troops by land will present such an overwhelming force to the disheartened Spaniards that they will make no resistance to a demand for surrender backed up by the threat of an immediate attack.

It now seems probable that no action will be taken before the arrival of the Monterey and the rest of the third detachment of troops. Possibly there will be no attack until the Manadock also arrives. The Monterey is expected within a week and the Manadock in about three weeks. However, it is thought that the Spaniards will surrender before the arrival of the Manadock, as the conditions in Manila are desperate. The native soldiers are deserting at every opportunity and stealing out of the city to join the insurgents. The Spanish regulars are tired of fighting night and day to repel the constant attacks of Aguinaldo's soldiers. Food is very scarce in the city and there is no chance of increasing the supply. The story comes from Manila that the Spaniards have determined to hold out until Aug. 1, and then to surrender if they shall have received no succor from Spain by that time.

SPAIN WILL AGREE.

Cambon Said to Have Given Assurances to McKinley.

Washington, Aug. 1.—M. Cambon has told the president that in his belief the terms of peace will be accepted by Spain. It is semi-officially stated that Spain will request that the clause relating to the withdrawal of troops be changed. It now provides for the immediate withdrawal.

The French ambassador said that Spain could not find means to transport her army from Cuba and Porto Rico at once. He pleaded that the Spanish government be given time to raise the necessary money to secure transports.

The president replied that the United States would deal leniently with Spain in the matter of withdrawing troops.

The president expects it will be necessary to call an extra session of the senate to ratify the treaty of peace.

In some quarters it is said that the answer of the Spanish government to the terms of peace outlined by the government of the United States is not expected before Tuesday.

DON'T GO IT BLIND.

THERE'S NO NEED TO IN JANESVILLE.

The Way Is Almost Hedged With Guide-Posts.

Have you ever read a newspaper article, a glowing account of some incident told in elusive words to lead you on, and found it ended up with a proprietary medicine advertisement? Made you angry, didn't it? And were you convinced of the merit of the article? We think not, because it told the experience of some stranger in a far-away town. To take his word for it was like "going it blind." It's a very different thing when a statement is prescribed from a citizen, from people we know, and that's the case here.

Mr. H. P. Hanson, of 103 Pleasant St., engineer, employed at the Janesville Machine Co., says: "Doan's Kidney Pills did me all the good that could be expected and I recommend them to any one who may be troubled with a lame back or any kidney disorder. After procuring them at the Janesville Co.'s drug store and taking them I felt better, my back did not ache like it did, and I did not rise in the morning with these symptoms for four or five years and I was more than pleased at the results obtained from the use of Doan's Kidney Pills. I highly recommend this reliable remedy to others." Doan's Kidney Pills for sale by all dealers. Price, 50 cts. Mailed by Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. You Have a House...

PUT A PRETTY Porch on it and note the difference in appearance. It adds half again to the looks, besides giving you more summer comfort than the same amount of money expended in any other way.

We Make Porch Designing a Specialty.

We can show you materials and designs in great variety, and the prices won't be high, either. Our lumber is all cut and milled from our own pineries and mills.—"One Profit From Stump to Consumer."

The Difference.

Not So Bad After All.
"Ah," said Miss Langulsh, "beauty is only skin deep, after all."
"Indeed!" retorted Miss Cutting. "At a guess I should have said yours was laid on thicker than that."—Chicago Daily News.

A Mild Answer.
Chicago Man—Well, what do you think of our city, sir?
New Yorker (meekly)—I can't tell you. I am not a profane man.—Harlem Life.

A Professional Insult.
